

# Informatik, Built For Pleasure

&quot;i&#039;m Cynthia. i&#039;ll be your pleasure droid this evening. where do you want

She&#039;s the finest thing i&#039;ve ever known  
From up to her head down to her toes  
Shape of things to come; she&#039;s a whole new breed  
One of flesh and blood, but part technology

My desire engineered  
Pure design built for pleasure  
More a god than machine  
Silicon man-made heaven

?? and built to please  
The state of the art accessories  
She&#039;s my special one, perfect in every way  
Knows just how to have fun, and always wants to play

When my day is over and i want to leave the world behind  
She makes everything alright  
With her options chosen and her functions reinitialized  
Watch her really come alive

She&#039;s the finest thing i&#039;ve ever known  
From up to her head down to her toes  
Shape of things to come; she&#039;s a whole new breed  
One of flesh and blood, but part technology
