Informatik, Human Nature

I&#039;m willing you&#039;re able
I say yes you say no
I&#039;m ready you&#039;re not so
I&#039;m easy you aren&#039;t though

I will be there in the morning
If that is what you are worrying
You will come to now or later
Without freedom there&#039;s no danger

Look at yourself and see what you&#039;re made of
What you don&#039;t know is what you&#039;re afraid of
It&#039;s never to late to change your behaviour
Why don&#039;t we explore a little human nature

Control me whatever
Your wish is my pleasure
Let&#039;s forget tommorow
Just take me and i&#039;ll follow

Now come closer and get to know me beautiful
And once you have it you will know it is never enough

Look at yourself and see what you&#039;re made of
What you don&#039;t know is what you&#039;re afraid of
It&#039;s never to late to change your behaviour
I&#039;d like to discover your human nature
