

Information Society, Attitude

Johnny moved to this big town
To be who he could be.
But the tough guys on the sidewalk
They don't want him to be free.
But he knows he has the power,
He knows someday they'll be dead.
They can't get him to turn around
He keeps walking straight ahead
'Cuz he's got attitude.
And it will get him through.
And he's got attitude,
And it will see him through.
Backstage Mary
She grew up with nothing but hunger in her purse.
All the fancy ladies tell her
"You'll only go from bad to worse."
But she just keeps on believing,
She tells them she's doing fine.
They get rich while she gets smart,
She's growing stronger all the time
'Cuz she's got attitude,
And it will get her through.
And she's got attitude,
And it will see her through.
Everybody knows who "they" are,
They need no address.
They make sure things are going their way,
And the country's in a mess.
As they buy that land, start that war,
keep those people poor,
They don't care if people aren't
Going to take it anymore.
And they've got attitude,
And it will get them through.
And they've got attitude,
And it will see them through.
