

# Information Society, Now That I Have You

You've got to believe there's something inside of me  
That makes me feel this way  
You've got to believe that you're still a part of me  
Today  
But telling a tale cannot be like living it  
No matter what you say  
And talking of love cannot be like giving it  
Away  
I know  
And you know  
The voices are calling  
Now that I have you  
Whatever in the world can I do  
Now that I have you  
Whoever in the world could say it's not true  
Now that I have you  
I wonder how much of our life is memory  
Remember yesterday  
I'm hoping to God you don't believe everything  
I say  
Remembering every part of our history  
A year is like a day  
You've got to believe that things won't always be  
This way  
I know  
And you know  
The voices are calling  
The walls are falling  
For my love  
And your love  
I've got to keep stalling  
Now that I have you  
Whatever in the world can I do  
Now that I have you  
Whoever in the world could say it's untrue  
Now that I have you
