

Inger, Awaiting You (Estonia - piosenka na EURCO)

I've been taking time
Moving side by side
With myself and then you arrived
Unpacking just my soul
I've been hiding this too long
Until you slammed the door and

I'm high on my mind
Of taste of your lips
And i cannot resist oh i oh my
You pulled me into this
Don't lie
So make up your mind

Darling, oh let's face it
Nobody can't break it
I just keep on
Awaiting you
Waiting
We can sit in silence
We still cannot hide it
I just keep on
Awaiting you
Awaiting you

Awaiting you
You

You, undressing my heart
Feels like i've been shot
With this softness in your eyes
The little things you do
Bringing back my senses
You take me to places
I've never been to

I'm high on my mind
Of taste of your lips
And i cannot resist oh i oh my
You pulled into this
Don't lie
So make up your mind

Darling, oh let's face it
Nobody can't break it
I just keep on
Awaiting you
Waiting
We can sit in silence
We still cannot hide it
I just keep on
Awaiting you
Awaiting you

Awaiting you
Awaiting you

I'm high on my mind
Of taste of your lips
And i cannot resist oh i oh my
You pulled into this
Don't lie
So make up your mind

Darling, oh let's face it
Nobody can't break it
I just keep on
Awaiting you
Waiting
We can sit in silence
We still cannot hide it
I just keep on
Awaiting you
Awaiting you

Awaiting you
Awaiting you
Awaiting you
I just keep on waiting
