

Initial Roxanne, Raise our voice

"Raise our voice"

1. I woke up in the morning,
found myself today.
Just started new way.
Before the doors close.
I'd never try to run away.
It's not hard for me to know.
There's no other way.
It makes me strong tonight.
I forgot about the reason of life.
But now.. the lights.. are on!

Ref: We can raise our voice!

Never will be frozen again!
Now I show you all the things what you can do.
Like me.
You can win like I did.
Don't run away!

2. I help you fly away.
Here I am again.
So many things.
different for you.
This could all disappear.
All around ist moveing fast.
Yeah, we are the same.
I'll make you stay this way.
Just forget about the reason of life.
Couse now... the lights... are on!

B: Do you hear??

I'm calling you.
You have to understand.
We can raise our voice!
