

Inna, In My Mind

Let me be the one you're calling
Midnight when you're low
Give me only five, six minutes
And I will make it glow

I only want you
I know, I know you know
What you gonna do
I know, I know you know
I'm comin' for you
I know, I know you know
These days I only want you

There's no reason you should hide
Yeah, I feel you deep inside
I can hear you in my mind, in my mind, mind, mind
There's no reason you should hide
Yeah, I feel you deep inside
I can hear you in my mind, in my mind

I won't stop 'till you'll be mine
All in and you can bet
If you leave I won't be fine
There's no going back

I only want you
I know, I know you know
What you gonna do
I know, I know you know
I'm comin' for you
I know, I know you know
These days I only want you

There's no reason you should hide
Yeah, I feel you deep inside
I can hear you in my mind, in my mind, mind, mind
There's no reason you should hide
Yeah, I feel you deep inside
I can hear you in my mind, in my mind
