

# Interference, Cain And Abel

Naked men in the desert are feeding the peasants  
And watch out for Cain he comes down like the rain  
Abel&#039;s not able to eat from the table  
Cause his throat got caught when Cain was using the razor  
Cain is now a barber heavy into fashion  
And that Neolithic style is really all the rage  
&#039;Watch out for the Bible&#039; cried the man inside a tower  
His mind was choked when the devil swung the rope

Why can&#039;t you see  
It&#039;s not what I really wanted  
Just you and me and what we believe

The feeling was growing like the flowers only faster  
When the flies took a trip on the ship to disaster  
By the time they came back the politician had the answer  
So the problem unsolved soon led to disaster  
Somebody blamed someone said we were responsible  
I couldn&#039;t take it said I broke the handle  
They came down really fast said &#039;Hey it&#039;s all over&#039;  
But I was only joking and the handle&#039;s still broken

Why can&#039;t you see  
It&#039;s not what I really wanted  
Just you and me and what do we believe  
And what do we believe
