## Interference, Cain And Abel

Naked men in the desert are feeding the peasants
And watch out for Cain he comes down like the rain
Abel's not able to eat from the table
Cause his throat got caught when Cain was using the razor
Cain is now a barber heavy into fashion
And that Neolithic style is really all the rage
'Watch out for the Bible' cried the man inside a tower
His mind was choked when the devil swung the rope

Why can't you see It's not what I really wanted Just you and me and what we believe

The feeling was growing like the flowers only faster
When the flies took a trip on the ship to disaster
By the time they came back the politician had the answer
So the problem unsolved soon led to disaster
Somebody blamed someone said we were responsible
I couldn't take it said I broke the handle
They came down really fast said 'Hey it's all over'
But I was only joking and the handle's still broken

Why can't you see It's not what I really wanted Just you and me and what do we believe And what do we believe
