

Invertigo, Slave

you don't believe my hurt for you is real
you wanna see me inside your hole
you can't conceive of things
unless you feel
you wanna drown me
to watch me float
here i go

CHORUS

anything you say
i deid to be your slave
always been this way
alive to be your slave
waiting to feed
you eat from my submission
words that you leave
is sweetness that rots
you let me breathe
and tell me i'm still living
deep in your mouth
swallow all you've got
all you want
I am the seed
i pierce, i rip, i christen
bout you've never known me
much at all
facing no fear
whenever you want me
skin without milk
blood without honey
deepen your pain
whenever you want me
sin without guilt
pay without money
