

# Iona, Wisdom

You were the very first before the world began  
And the oceans rose and the rivers ran  
And the water flowed before the mountains and hills were set in place  
Before the stars in the sky and the human race  
You were there, You were there

Chorus:

Wisdom, teach me what is right  
Widsom, come and give me sight  
Wisdom, come and be my light  
My light

You are the voice of truth that is just and right  
A shield to the faithful, a sword for the fight  
A path for the wise and those who desire You more than silver or gold  
Will find understanding within the soul  
For You are there, You are there

(Chorus...)
