

Isaacs, They Don't Know What God Knows

Staring from the waiting room
Her eyes were filled with tears
She was trying not to question
How her sickness could be real
Doctor after Doctor gave her
Just a few more days
But with her faith in Jesus
She had the strength to say

Chorus

They don't know the God I serve
Already knows the answers
They don't know he still works
miracles
And holds us in His hand
Man may give his best opinion
On what the future holds
But I look up for my solution
For they don't know what God knows

Christians if we live our lives
The way that Jesus would
Then surely there will be those
who
Will persecute our good
And just as Jesus witnessed
To the scolding multitudes
Let's tell those unbelievers
That they can know him too
