

Isis Gee, What You See

All over
This solder
Chip lying
On your shoulder
You gonna' take it or leave it this time?

And the message Confesses
No room for consequences
I could see
But all senses leaving me blind

With evidence clear
It's a better day now
I can move on with my life
Drawing my line in the sand
It's a better day now
Won't cross it again

Cause I wouldn't change
Not for a minute
What you see is what you're getting
So you can
Take it or
Or Leave it

What You See
Is What You Get

And I wouldn't change
Not for a million
Wouldn't exchange
The way that I'm living
And so you finally see
I'm loving me.
My mind is made up with it
So take it or leave it

Does anybody out there hear me?
Anybody long to be free?
There's a better day
A time to say
Take it or leave

Well I'm a masterpiece
In this life
Can't fathom the reasons
So don't even go there this time
And my choices, Rejoicing
Bare fruit in truth I'm voicing
Push to shove
I'm stronger on my own

With evidence clear
It's a better day now
I can move on with my life
Drawing my line in the sand
It's a better day now
Won't cross it again

Cause I wouldn't change
Not for a minute
What you see is what you're getting
So you can
Take it or

Or Leave it

What You See
Is What You Get

And I wouldn't change
Not for a million
Wouldn't exchange
The way that I'm living
And so you finally see
I'm loving me
My mind is made up with it
So take it or leave it

No longer small
