

Isis Gee, Where i wanna be

You've got a gentle persuasion
Right before my eyes
And i'm losing control
Willing to give but not able
To take what's surely mine
And i'm acting the fool
But no more falling on my face
No more feeling out of place
You found a way to my heart
You found a place from the start
No more in the lost and found
Cause you've turned
My life around
Oh and here we stand with feet on
Solid ground
Oh and that's why you are
You are where i wanna be
Put that on everything
You got a hold of me
And your always on my mind
Completely letting go
And now we are finally home
I'm gonna drive over the limit
If it's where you are it's
Where i wanna be
I found my sense of direction
Clear as the day is long
Within your eyes
Brought of the sense
Of reflection
Mirror to my inner child
And you are leading me home
And no more falling on my face
No more feeling out of place
You found a way to my heart
You found a place from the start
No more in the lost and found
Cause you've turned
My life around
Oh and here we stand with feet on
Solid ground
Oh and that's why you are
You are where i wanna be
Put that on everything
You got a hold of me
And your always on my mind
Completely letting go
And now we are finally home
I'm gonna drive over the limit
If it's where you are it's
Where i wanna be
I've been waiting all my life
For the one
Who would complete me
For the one who'd make it right
And i would walk a thousand miles
Just to breathe your smile
Shining like the sun
You are my love for all time
(Oh that's why)
You are where i wanna be
Put that on everything...
Yeah, i'm completely letting go
And now we are finally home

I'm gonna drive over the limit
If it's where you are it's
Where i wanna be
