## Ivy, Ive Got A Feeling

Oh yeah

Baby, what can i do? I've been, out searching for you.

I've got a feeling all i need is a love thats true

Baby, what can i say? I know, this wont go away

I've got a feeling all i need is to see today

I've been watching the world pass by all around me I was letting the days go by till you found me

Baby, what can i do? Ive been, out searching for you

I've got a feeling all i need is a love thats true

I've been watching the world pass by all around me I was letting the days go by till you found me
