

Ivy, Midnight Sun

Floating over the airwaves
What a feeling
I don't believe it
Distant voices from deep space
Are you receiving?
Or can't you hear it?

You're still the only one
Who sets me free
Just like a midnight sun
Shining on me

Drifting over the freeways
It seems so easy
I know you're near me
Rising up through the staircase
Your eyes are open
I know you hear me

You're still the only one
Who sets me free
Just like a midnight sun
Shining on me

Riding out on the airwaves
What a feeling
I don't believe it
Lift me out of this strange place
Give me something
You know I need it

You're still the only one
Who sets me free
Just like a midnight sun
Shining on me
You're still the only one
Who sets me free
Just like a midnight sun
Shining on me
