

Iza Lach, It's Summer Again

It's Summer again,
We are walking by the beach
Doing all the things that we used to do.
It's Sunny again,
We don't need so many clothes
Our bodies are exposed
Cause it's hot, it's hot in here.
It's summer, that brought us here before
It's summer, that made us fall in love
On summer, our hearts are getting warm
Like never before.

I remember what you said to me last year
It feels so fine, all of the seasons that it's ment to be
And here we are making love in your backseat
Smiling all day, 'cause it's summer again in our hearts.
