

# J.E.L, Make believe

1. One along here tonight  
When you walked into the room  
I felt apart, heart went boom  
And got to see you now  
Got to show you how  
Uuu you can trust in me  
Take it chance  
Take it slow  
Got to get it rights  
Don't look away, a shy and low  
You've got to come on strong  
If we're gonna get alone  
Uuu so trust in me  
R: I want you  
To make believe  
It's a first time  
And I've got it  
Say to you  
Love find a way it that always true x2  
It that always true x8  
2. Once a world in the cloud  
But the people getting down  
It's hard enough, round down on fight  
Looking to my eyes  
Gonna give you my suprise  
Mmm so trust in me  
Turn around can't you see  
I thought you around the world  
And say 'I do' when dive be true  
No fear if and we flame  
We're hope you feel the same  
Uuu you can trust in me  
R: I want you  
To make believe  
It's a first time  
And I've got it  
Say to you  
Love find a way it that always true x2  
It that always true x8  
I want you  
To make believe  
It's a first time  
And I've got it  
Say to you  
Love find a way it that always true
