

J. Ralph & Sia, One Candle

Two hands, split
Two hands, humans
Humans making humans
Mountains, maybe we can move them
Come now, together we can do this

Together we can
Take my hand
Take my hand
(I want to save Orangutans)
Together we can
Light your candles and stand
For those that came before man
(I want to save Orangutans)

Come on light the candle
Then curse the darkness
Then curse the darkness
/2x

And breathing
Give thanks for the forgiving
Listen, all the songs I'm singing
We can do something or do nothing
So come now, strike them down let's do this

Together we can
Take my hand
Take my hand
(I want to save Orangutans)
Together we can
Light your candles and stand
For those that came before man
(I want to save Orangutans)

Come on light the candle
Then curse the darkness
Then curse the darkness
/2x

Come on and sing it with me now /2x

Together we can
Take my hand
Take my hand
(I want to save Orangutans)
Together we can
Light your candles and stand
For those that came before man
(I want to save Orangutans)

Come on light the candle
Then curse the darkness
Then curse the darkness
/4x
