

# Ja Rule, The Pledge

[Ashanti]

In the beginning...

When no one else was around...

You were there...

And now...that everything is good...

You gotta know...

I'll ride with you...forever...

[Ashanti]

I never thought I could find this thang

That always had me comin back again

Something about the way you move, it got me

Hooked on you, no matter what I do

I never felt this way for another

It's feelin kinda strange but I love it

You gotta know thata I would never leave

You did that thang to me, you is where I be

[Ashanti]

There's no me

Without you

I can't think

Without you

Don't you know that I will

Never leave...

leave you

All I need

need is you

[Ashanti]

You're always there to make me feel alright

You got me thinkin' bout you day and night

Thinkin' bout how my life is now

How you, make me smile, and I, love ya style

We been together through thick and thin

Whatever troubles you're in, I'm in

You gotta know that I would never leave

You did that thang to me, you is where I be

[Ashanti]

What you've done to me

You know that I can't see

Myself with or without you

Bein' without you

Breathin without you, baby

[Ashanti]

What you've done to me

You know that I can't see

Myself with or without you

Bein' without you

Breathin without you, baby

[Ashanti]

There's no me

Without you

I can't think

Without you

Don't you know that I will

Never leave...

leave you

All I need

need is you

[Caddillac Tah]

Now it don't matter if you hatin' or spoiled...

We gone get that dough

The camp is strong...

Can't do nothin' else but blow

I chant this cause...

I'm lettin' you all know (it's murda, for life)

Now you know I'm a put my life on the line for yours  
Pull a nine out the drawer, strap up, when it's time for war  
Stack up, every penny, money over these broads  
Back up, against the wall in a riot or brawl  
I pledge allegiance, the I-N-C is the clique  
And till I die, I'm a ride with my niggas through thick  
And thin, playin' him, we playin' to win  
Steady ballin', soarin', long dickin' these broads, and..  
I'm my brother's keeper, slugs'll spreech ya, plug'll heat ya  
Fuckin' wit my family, so understand, B, there's no me without them  
All we got is us, me and 'Shan tearin' it up, nigga what, what

[Ashanti]

There's no me  
Without you  
I can't think  
Without you  
Don't you know that I will  
Never leave...  
leave you  
All I need  
need is you

[Ashanti]

There's no me  
Without you  
I can't think  
Without you  
Don't you know that I will  
Never leave...  
leave you  
All I need  
need is you

[Ashanti]

Murder I.N.C.  
You know that I can't see myself  
Livin without you  
Bein without you  
Breathin without you, baby  
[Ashanti]  
What you've done to me  
You know that I can't see  
Myself with or without you  
Bein' without you  
Breathin without you, baby
