

Jack Foster III, Dream With You

I want to dream with you forever in this world
You are who I am for forever in this world
You are everything I ever dreamed of and more
You are teardrops and laughter all things I adore

Warm and loving I can feel you snuggle closely to me
Softly, gently, I can kiss as you lay beside me

I want to dream with you forever in this world
You are who I am for forever in this world
It's so cold here without you the rain streaks the day
I keep thinking about you my sun's brightest ray

What will be, I do not know
What will be, will be
What will be, I do not know
All I know is that I love you
Love to see

I want to dream with you forever in this world
