

Jack Greene, Hurt's On Me

Well have a little drink on me my friend if you don't mind drinking with a fool
What I need most is to listen and post to tell my troubles to
Now you don't have a care in the world so come on in and sat down
Cause the drinks are free and the hurt's on me
And I got enough for both to go around
Now please don't think that one little drink has got me feeling sad
Well I just have one and all day long I felt just this bad
She left me a million memories I'm gonna try to drown
And the drinks are free and the hurt's on me
And I got enough for both to go around
[ac.guitar]
Well have another drink on me my friend I'm sippin' up tonight
Gonna tryin' to forget the girl I met that didn't do me right
She found someone to take my place and I'm out on the town
And the drinks are free and the hurt's on me
And I got enough for both to go around
Yes the drinks are free and the hurt's on me
And I got enough for both to go around
