

Jack Ingram, Make My Heart Flutter

C. Boyd

No one can make me stammer and stutter
Fall over every word that I utter
No one else can talk me to takin another view
No one else can make my heart flutter like you

No one drives me to exasperation
Nobody gives my heart palpitations
Except for you, its no exaggeration, its true
No one else can make my heart flutter like you

No one else can make my heart flutter
Theres a hole over me and its gettin no cover
Till you tell me youll be my lover
And youre convinced we were made for one another
You are the one and there aint no other

No one else can peak my desire
No one else makes me a spinnin tire
Turnin and churnin and burnin on fire for you
No one else can make my heart flutter like you
