

# Jack Ingram, Run To Me

When the clouds are low and close to the ground  
and you look for help  
there's no one around  
and you know the worst has yet come down  
run to me

when the water's up around your neck  
every thing around you is just a wreck  
and you know that you got nothing left  
run to me, run to me

I'll hold you up in front of me  
yea run to me  
I won't let you down

I'm the one that you can turn to  
when everyone has let you down  
and when the fire is outside it'll burn you  
and you think there's no way out

I'm the one that you can turn to  
everyone has let you down  
when the fire is outside it'll burn you  
and you think there's no way out

when your sure nobody understands  
you've quit looking for a helping  
hey forget all that cus I'm still your man  
you can run to me run to me  
I'm standing here  
I'll always be  
yea run to me  
I won't let you down  
I won't let you down
