

Jack Johnson, Dark Water & Stars

am floating and adrift in a sea of joy
Looking at the stars
Forgot so many stars
Palm trees silhouettes
It's torn and dark against the sky
I'll take you higher
Please come with me
Just me and you, floating in this space
Just me and you...
Floating in this space
Close your eyes and lean on me
Cool and calm, the water is
Take me higher
I'll come with you
Just me and you, floating in this place
Just me and you...
Floating in this place
When on land, with this strange cargo
We were from the stars
Do you remember that?
We were from the stars
Do you remember that?
