

# Jack Johnson, People Watching

Well I'm just people watching  
The other people watching me  
And we're all people watching  
The other people watching we  
We're as lonely as we wanted to be  
We're all as lonely as we wanted to be  
Just as lonely as we wanted to be  
I'm just you, you're just me  
But it's only true if we believe  
Well there really ain't no use in stopping  
What nobody never told me not to do  
So I'll keep people watching, watching me now  
Finding my way back to you  
We're as lonely as we wanted to be  
We're all as lonely as we wanted to be  
I'm just as lonely as I wanted to be  
I'm just you, you're just me  
But it's only true if we believe  
I see so many feet going so many ways  
People passing by, they got nothing to say  
All on our own, just watching and confused  
Nobody told me what to do  
I can't stop breaking all the rules  
And I'm just people watching  
The other people watching me  
We're all people watching  
The other people watching we  
We're as lonely as we wanted to be  
We're not so lonely as we wanted to be  
I'm just as lonely as I wanted to be  
Not so lonely  
Lonely, lonely, lonely
