Jackie Lomax, Love Will Find A Way

Don't despair my heart, lovers sometimes part You know you're taking chances from the start Love will find a way back in my heart

Don't give in to fears, you loved her all those years Even though you're fighting back your tears Love will find a way back in my heart

Love will find a way, Love will find a way Love will find a way back in my heart

Don't think it's a shame, learn to play the game Till you stop remembering her name Love will find a way back in my heart

Love will find a way, Love will find a way Love will find a way back in my heart
