

Jackie Lomax, Speak To Me

Speak to me
You cannot say we're through and not say why
Speak to me
What can I have done to make you cry?
Is it something I have said?
Something way above my head?
I have thought of everything
But I can see what's worrying you

Speak to me
Tell me, baby, what it is that's hurting you
Speak to me
Got to know if there is something I can do
Willingly I'd change my life
If it made you feel all right
Anything that I can do
To keep myself from hurting you, I'd do

Surely you can spare a moment
Just a word before you leave
Baby, just one little moment
Can't you see I'm begging, please?
Please

(Is it something I have said?
Something way above my head?
I have thought of everything
I can see what's worrying you)

Speak to me
Tell me, baby, what it is that's hurting you
Speak to me
I have to know if there is something I can do
Willingly I'd change my life
If it made you feel all right
Everything that I can do
To keep myself from hurting you, I'd do

Speak to me
Speak to me
