

Jackie Lomax, You Better Let Me Know

If you want me to come home
If you need me, you better let me know
If you want me to come home
You better let me know - send me a letter
You better let me know
You better let me know

If you need me to tell you why
You should be here by my side
You ought to realise it takes two to try
And I'm gonna have to know - send me a letter
You better let me know
You better let me know

If you want me - you better let me know
If you want me - you better let me know
If you want me - you better let me know
If you want me - you better let me know

If I happen to come around
Please don't mind me, I have time
You better take it to the lost and found
Cause I'm going to have to know - send me a letter
You're gonna let me know
You better let me know

If you want me - you better let me know
If you want me - you better let me know
If you want me - you better let me know
If you want me - you better let me know
