

Jackie.O, Spontaneous Combustion

I saw you walkin, ya walkin away
you have a mission
i wish you could stay
it won't belong before its complete
destiny told us we have to meet
somebody lit the flame of life it blew me away it blew me away
time is running you show that it counts
the flame is burning as the pressure mounts
somebody lit the flame of life it blew me away it blew me away
sparks are flying up in the skies
you make run before the fire dies
somebody lit the flame of life it blew me away it blew me away
