

Jackopierce, Wildflower

"Sweet darling country girl
Got her hair tied back in a bow
Walking long and dusty miles
Down a gravel gray Texas road

Her butterfly eyes have seen
the Coming of ten thousand wildflowers
Her eyes have seen the coming of wildflowers

Tiptop of Texas on the handle of the land
The boy who would be cowboy rides on VW van
Bringing everything about him that she can have
If she can
He's got himself a mind for wildflowers
He's coming long miles for his wildflowers
Wildflowers
Wildflowers"
