

Jackson's Kid Summer, Food Chain

You're a part of the food chain
Just a part of the food chain
You're a part of the food chain
Dance until you can't eat no more
You're a part of the food chain
Just a part of the food chain
You're a rotten little part of the food chain
And I can't stand your constant conducting
So keep your
Dress pulled tight over your shaking little body
And just let love feel the pull
So keep your
Head on my shoulder
Because as I get older
I'm finding it harder and harder to believe
So I've been thinking more and more
About my minimum wage life
And it's getting really crazy out there
So why don't you just stay here tonight?
So keep your hands in the air
And just let your heart
Hit the floor
Na Na Na Na Na
No can't catch me
Na Na Na Na Na
NO
Never
So as the summer let's you go
You won't be coming back 'round here
So I think you should know
You're a part of the Food Chain
