

# Jackson United, Let Us In Dear

on and on she disappears  
alone again she left me here  
you can't hide a thing my dear  
can't hide away from me

on and on she disappears  
alone again she left me here  
you can't hide a thing my dear  
can't hide away from me

gone so long  
where we've been  
open up  
and let us in

a little pissed, a little gone  
left him here to drink til dawn  
final eyes and reggae arms  
we miss him anyway

gone so long  
where we've been  
open up  
and let us in

before you go  
is this the end  
open up  
and let us in

on and on she disappears  
alone again she left me here  
you can't hide a thing my dear  
can't hide away from me

gone so long  
where we've been  
open up  
and let us in

before you go  
is this the end  
open up  
and let us in
