## Jackson United, She's Giving In

Why do you break?
Make me fix you again
Driven deeper than anything
Beyond the valley fo the diamond ring
What is the secret to a sure thing?

So happy to be back in good graces with you Bitterness isn't what you do Live between the black and blue Left with a question there's no answer to

She's giving in now She's giving in

I don't see a light at the end of the tunnel Never meant to try and burst your bubble Don't want to leave you at the heart of the trouble Find your way from the wreck and rubble

She's giving in now She's giving in

Giving in
To what you've always wanted
Giving in
To what you've set upon us
Giving in
To what you think you need
You need
