

Jackson United, White Flag Burning

cursed your name today
spit your words away
gonna breathe this change
i will rearrange
wanna speak my mind
fear won't keep me blind

shift the blame from me
crossed this bridge in peace
white flag stained with red
time to count the dead
ambulance delayed
hope gets in the way

i can feel the road
running faster
feel it on my own
i'll outlast you
i can feel the road
running faster
feel it on my own

cursed your name today
spit your words away
white flag stained with red
time to count the dead
ambulance delayed
hope gets in the way

i can feel the road
running faster
feel it on my own
i'll outlast you
i can feel the road
running faster
feel it on my own

don't laugh
i can hear you cryin'
don't look
starin' at the wall
don't touch
you can never catch me
do nothing at all

i can feel the road
running faster
feel it on my own
i'll outlast you
i can feel the road
running faster
feel it on my own
i'll outlast you
i can feel the road
running faster
feel it on my own
i'll outlast you
i can feel the road
running faster
feel it on my own
