

Jaden Smith, George Jeff

sometimes I feel like a Polaroid picture
trapped inside space and time
take a sip of my elixir
Play "electric love" while we ride in the Fisker
She fell in love with me
My G
I swear I never kissed her
Leave me to be free
I don't have time to be a mister
baby I'll be blunt with you

sometimes I feel like a Polaroid picture
trapped inside space and time
take a sip of my elixir
Play "electric love" while we ride in the Fisker
She fell in love with me
My G
I swear I never kissed her
Leave me to be free
I don't have time to be a mister
baby I'll be blunt with you
I won't be smoking swishers
I just do a couple dishes
then I wish you marry Christmas
Adios, make that body roll, you scream Geronimo
blow some kisses to some mistresses
they fall like dominos
dominos, vamos, baby girl I gotta you
I just talked to Billboard Records
they said I'm phenomenal
