

# Jadon Lavik, Never Alone

This world can sometimes paint a hopeless picture  
With only glimpses of what could be  
But I believe these are perfect plans  
By the God who will redeem  
So I'm left to face the trials  
All my hope is fixed on you  
I'm so thankful for your spirit that guides me  
In this world that I walk through

And I am never alone never forgotten or an afterthought to you  
Oh and I am never alone not left to my own strength to make it to make it through

He has made with us a promise  
Built on the most amazing grace  
Found in the childlike surrender  
Just the smallest seed of faith  
Blessed assurance hopeful future  
Peace to calm the mighty storm  
When it seems like nobody else cares  
Yes my God he will be there

And I am never alone never forgotten or an afterthought to you  
Oh and I am never alone not left to my own strength to make it to make it through

And I will never have to fear my God is here right here  
Spoken words of truth from the God that never fails you never fail

And I am never alone never forgotten or an afterthought to you  
Oh and I am never alone not left to my own strength to make it to make it through  
And I am never alone never forgotten or an afterthought to you  
Oh and I am never alone not left to my own strength to make it to make it through

And I will never have to fear, you're right here
