

Jah Cure, Searching For A Girl

Now woah yeh....

I've been searching for a girl like you
Searching for a girl like you
Searching for a girl, like you(extended)
Searching for a girl like you

Girl you how much I care for you
And I will always be there for you
All my life I live it for you
And that is so true

Don't play with my love
We got something serious going on girl
Don't play with my love, yeah
Something serious going on

How could you say you love me
And you never let me know
Now that you say you love
It's important that I know
Feeling is mutual
Baby I feel the same
Feeling is mutual
For two will play this game

[Chorus:]
I've been searching for a girl like you
Searching for a girl like you
Searching for a girl like you(extended)
Searching for a girl like you
