

Jaheim, Me And My Bitch

[Verse 1]

Sitting here with carats in your ears, mink on your back, your bank account stacked

You deserve everything you got cause you held me down when things got hot on the block

Looking back I remember the days when shit got thick you were the first to say "Baby keep your head up, it will be ok"

You're better off without that kind of bad ass nigga anyway

[Chorus:]

It's on tonight Cash up in the dash and I'm feelin right

Got heat up in the seat just in case of beef

for anyone who wanna come test me and my baby

Honey don't be afraid See this cat ridin in that Escalade

plotting on my riches yeah he will get slayed

Messin 'round with me and my lady, me and my bitch

[Verse 2]

You're a dream you're my ghetto queen If I ain't got nobody else I know I got you on my team

So I knock, get the cake, cop the rocks, meet your pops then move your whole family off the block

Still niggas talking this and that Jah don't how to treat you don't know how to act You're a good girl you deserve better than that when in fact accounts are major got your name attached

[Chorus]

[Bridge:]

It's on tonight do what you like

Whatever's wrong I'll make it right

Got your back count on that

Whatever you need I'm down for you cause

You're on my team you're my everything

Your doe gettin low girl I gots to pay

So tonight it's all on you so won't you let your

boy know what you trying to do

[Chorus]
