

Jakalope, Something New

I wanna see you baby
I wanna be your girl
I want you to see
I'm everything
That you're looking for
I wanna be so right

I tried nice
You dont seem
To see me here
Beside you
It's time I tied
Something new

I think you're ready baby
I can change the lights
I'll make you believe
Anything you think you see
When you're thinking of me
I'm gonna wind up with
Something new

I tried nice
Bad girl here
Now pay the price
For selfish
It's time I tried out
Something new

I tried nice
You don't look twice
To see me here
Beside you
It's time I tried out
Something new
Something new
Something new

I tried nice
You don't seem
To see me here
Beside you
It's time i tried out
Something new
It's something new

I tried nice
You don't look twice
To see me here
Beside you
It's time i tried out
Something new
Something new
