

# Jake Bugg, Gimme The Love

Stick lights and round about the old days  
Keeping rich just to make new waves  
I thought about it in a few ways  
Pull back, took on the pale blaze  
Middle role, the world about the game play  
Soft coke is hard on the airplay  
Tryna it make sound like the new face  
It's only gonna be the same

First was falling deep it  
Stay back and trying to give it upbeat  
Those kids talk about the old shits  
Brick wall hit by the concrete  
Tall Ben back at his glory  
Hard telling that he hit my pony  
Back time, thinking about the old meat  
It's only gonna be the same

Just gimme the love /10x  
It's only gonna be the same

Shakes hard, turning out to get paid  
Bad times sees the people real fake  
Pushing on her heart has already been made  
Coming up fast, cut slice, the next take  
Better put your sticker on cause you gotta break  
Leaves nights make you all tight ways  
And now gonna fall in my way

Just gimme the love /10x  
It's only gonna be the same  
/4x
