## Jake Bugg, Taste It

Fill my head with the future Fill my eyes with the sky Whole my life I?ve left behind Never felt more alive

I speed conversation Speed it all along Look in your eyes Like I?ve said \_\_\_\_ But I never felt more alive

I can taste it
In my mouth
It?s so bitter sweet
It?s nothing in your eyes \_\_\_
It should be easy,
But it?s hard to leave

Without need a fire zeppelin You don?t know if you don?t try Look the way I should But I walk the hood But I?ve never felt more alive

Talk about the imagination Think about the things you are You are close to sky \_\_\_ But I never felt more alive

I can taste it
In my mouth
It?s so bitter sweet
It?s nothing in your eyes \_\_\_
It should be easy,
But it?s hard to leave
