

Jamai, I Don't Wanna Stop

Baby this time we can't ignore
oh no
you belong to me I know it for sure
and damned your not gonna get me down
before you have showed me there's a love in town

I don't wanna stop giving you love
oh this feeling must be send from above
everytime that you come near me so much more then before
spinning me around
driving me wild
baby you're the girl I'm dreaming about
I wanna hold you, squeeze you, rock your whole world inside out

Baby look in my eyes
I'll make you see
I'll be your guy let me set you free
baby your my angel
I can be your man
woow you're making me crazy like you know I care

I dont wanna stop giving you love
oh this feeling must be sent from above
everytime that you come near me so much more then before
spinning me around
driving me wild
baby you're the girl im dreaming about
I wanna hold you, squeeze you, rock your whole world inside out

Come on!!

Come on!!

I don't wanna stop giving you love
oh this feeling must be send from above
everytime that you come near me so much more then before
spinning me around
driving me wild
baby your the girl I'm dreaming about
I wanna hold you, squeeze you, rock your whole world inside out

Spinning me around
