

# Jamai, Think About You

You know you took my breath away  
the very first time you looked my way  
I like to think I am that kind of guy  
not too easy to rock my world  
but you yeah you make me say

I believe  
when I look into your eyes  
You and me  
come together touch the sky

I think about you all the time  
I can see you in my mind  
I believe you're all that I need  
this is something I can't hide  
I think about you day and night  
it makes me wonder  
do you dream about me?

all the things that you sang to me  
girl you're touching the heart of me  
it gives me shivers up and down my spine  
when I think that you could be mine  
it feels like we're meant to be

I believe  
when I look into your eyes  
you and me  
come together touch the sky

I think about you all the time  
I can see you in my mind  
I believe you're all that I need  
this is something I can't hide  
I think about you day and night  
it makes me wonder do you dream about me?  
now do you?

think about you

girl I believe  
when I look into your eyes  
You and me  
come together touch the sky

I think about you all the time  
I can see you in my mind  
I believe you're all that I need  
this is something I can't hide  
I think about you day and night  
it makes me wonder do you dream about me?  
now do you?
