

# James Cotton, Certified

Down in the yard tryin' to fix my ride  
Busted my knuckles and I went inside  
Just made it worse I tried to fix up my hand  
I aint much of a medicine man  
Alot of things that i wanna do  
That don't work out the way I want 'em to  
One thing that I do just right  
When it comes to love I'm certified

Yes I got my degree  
Doctor of love I got a PHD  
If you some kind of lovin' that you never tried  
Come to me I'm certified

Out on the job and the bossman yell  
Here we go again, I'm gonna catch some hell  
He say if you screw up one more time  
You'll be in the unemployment line  
Alot of jobs that I can do  
Even more I never too  
One place I know I'm qualified  
When I comes to love I'm certified

Yes I got my degree  
Doctor of love I got a PHD  
If you some kind of lovin' that you never tried  
Come to me I'm certified

Nothin come easy and you know that's a fact  
Workin for the man about to break my back  
5 o'clock and the whistle blow  
I'm the first on out the do'  
You can bet I'll be headed home  
Don't wanna leave my woman alone  
One thing she says that I do just right  
When it come to love I'm certified

Yes I got my degree  
Doctor of love I got a PHD  
If you some kind of lovin' that you never tried  
I'm certified
