

James Gang, Stop

Stop
Cause baby can't you see that I can't take it no more
Stop
If you keep it up, I'm gonna go through the floor

Never knew how good love could be, love has gone and made a fool of me.
Everything is hazy, one more kiss could drive me crazy

Stop
Hold on just a minute cause I got to catch my breath
Stop
Every time you squeeze, you scare my heart half to death

Thought I was the captain of my ship, but your love has made me lose my grip
Everything is hazy, one more kiss could drive me crazy

I never knew how good love could be, love has gone and made a fool of me
Everything is hazy, one more kiss could drive me crazy

Stop
I think you're trying to take advantage of poor old me
Stop
When you touch my hands, I'm as helpless as I can be

Tell me baby what are you made of, what you do to me must be made of love
Everything is hazy, one more kiss could drive me crazy, yes she will
