

break down  
break down  
break down  
break down  
break down  
break down  
break down  
break down the government walls!  
break down my government walls

Break down the government walls

I see our interest fall well behind their curtain  
break down the government walls  
infiltrate our television  
Break down the government walls  
time to be outspoken  
It's a crime to be outspoken  
It's a crime to be outspoken  
It's a crime  
It's a crime
