James, Just Like Fred Astire

Doctor,
What is happening to me?
Palpitations
My mind's diseased
Even my vision is impaired
I'm losing my hair
Cos when I hold her in my arms
I feel like Fred Astaire
Lovesick
My temperature's high

Just met a girl Who believes we can fly I'm a bull not a bear

I'm a millionaire

And when I hold her in my arms

I feel like Fred Astaire I believe in happiness I believe in love

I believe she fell to earth from somewhere high above I believe in Hollywood

Don't believe that Love must bring despair

Cos when I hold her in my arms

I'm just like Fred Astaire He said love is just a disease

A plague for the nave

These days no one believes These days no one believes

Meteors may strike the earth

Nations live and die

I'm the boy who got the girl Who showed me how to fly

We can cross the race divide

Bridge a gap that wasn't really there

When I hold her in my arms I feel like Fred Astaire

I'm gonna hold her in my charm

Just like Fred Astaire
