

# James Otto, The Man That I Am

Where do you go when no ones watching  
Only you can see  
I want to know how hot is that fire you burn for me  
Cause all my life girl Ive been waiting  
On a love that strong  
And maybe this one aint it and I can tell it wont take long

Chorus:

Not as long as Im the man that I am  
Light off shades down candles painting shadows on the wall  
Aint too hard to understand  
What it does every taste every touch going deeper  
Awe and its a feelin that I cant describe  
I know you wouldnt understand unless you were the man that I am

I want to see all those secrets down there where you hide  
I want to be the only man that goes that deep inside  
Cause all my life girl Ive been waitin on a love that strong  
And baby this one is it I can tell it wont take long

Chorus

Not as long as Im the man that I am  
Light off shades down candles painting shadows on the wall  
Aint too hard to understand  
What it does every taste every touch going deeper  
Awe and its a feelin that I cant describe

Chorus

Let me touch you one more time  
Let me taste whats on your mind  
Let me be right here beside you  
When you wake up baby  
I want to be the only man to touch you  
I want to be the only man that pleases you  
And teases you and takes you higher than youve ever been  
Longer than youve ever seen  
Stronger than youve ever seen
