

James Strange Dream, Mountains In My Dreams

Feeling overloaded
In my brain
Circumstances are falling down
Like acid rain
You've got to pull up
You've got to fight
He can make your life turn out right

I will take you to the mountains in my dreams
You can come along to find out what it means

Castles are crumbling down
Into the sea
My dreams are falling around
All over me
I've got to pull up
I've got to fight
He can make my life turn out right

I will take you to the mountains in my dreams
You can come along to find out what it means
